The Southern mails farnish the details of the important news from Nicaragua brought by the steamship Teanessee at New Orleans:

The expected battle between Gen. Walker and the combined forces of the governments allied against him has taken place, and his success has been complete, beyond the expectations of his most sanguine friends.

The enemy having been for sometime advancing towards Masaya and evidently seeking to occupy that town, Gen. Walker withdrew the small force stationed there, in order to encourage them to occupy the place, knowing it to be a much more favorable point to attack than at Leon. Atter ing a smaller force at Grenada. On the morning of the 12th, while approaching Masaya, the enemy called out in full force and attacked him, but were immediately repulsed and driven into the city, with imtheir way with the bodies of the dead, as their way with the bodies of the dead, as they advanced and entered the town. Gautemalians were beseiging that place.

On the receipt of this news Gen. Walker immediately marched his troops for Grenada, where he arrived about 10 o'clock on the 13th, and upon his arrival on the heights near the city, found it to be barric-aded by the whole force of the invaders. aded by the whole force of the invaders.— the introduction of goods into Nuevo Leon. The enemy lost at Grenada 400 killed; at Masaya 400 killed and 300 wounded, making in all 1,100 men. Gen. Walker's loss in both engagement was 16 killed and 28 woundedof them mortally. It was reported that Gen. Mendez, the second in command of the enemy, was shot dead at Masaya at the time our informant left.

Gen. Walker was to march on the following day for Masaya and Leon, his troops being in the most exalted spirits and eager for the march. During the absence of Gen. Walker at Masaya, the citizens, learning that the enemy were advancing, repaired to the Ordinance Department and arming themselves awaited the attack, and fought with unequalled bravery and desperation for twenty-two hours, defending the Goverament buildings until the arrival of the army. It is with the deepest sense of regret that we announce the illness of Col. John H. Wheeler, the American Minister. On the night of Wednesday he came home at a late hour and went to bed in apparent good health. In a short time he was seized with cramps, and five painful spasms followed in rapid succession. These left him sensc-less, and all occurring before medical as-sistance could be had. In a few moments Drs. Royston and Callahan were called in, and powerful remedies were at once administered. Throughout the night and during the next day, his life was suspended by the brittlest thread; but by continued assist-ance, rendered cheerfully by ladies and gen-tlemen, he was alleviated into a gentle sleep, after which the danger was considered as almost over. He is at present convalescent, and with his constitution, we may hope to see him about in a very short time.

The same paper says: Two brass howitzers, a large number of Minie muskets, and a considerable quanti-ty of ammunition arrived on Monday last on the San Carlos. The howitzers are being mounted rapidly and will be ready to move with the army. A regular corps of sharp shooters has been organized in each battalion. The best marksmen in every company are selected and then armed with the Minie musket. By this arrangement a body is organized who may be relied on to kill a man at one thousand yards, three shots out of five.

Camargo is defended by 1.300 Mexicans under command. ed by 1,300 Mexicans under command of Gen. Garza. THE DELAWARE LANDS-BAD FOR KAN-SAS .- The sale of Delaware lands in the Territory of Kansas, to take place on the 17th inst., is attracting attention in every part of the country. Large combinations have been made in the East, and in the South, to buy heavily of these lands. And Missouri is also putting in for her share.— Probably \$250,000 of gold has gone from St. Louis alone, to make purchases of these Delaware lands. We know one Banking Hruse here that put up, yesterday about \$70,000 of gold for Kansas.

A considerable number of Kentuckians

have passed through St. Louis, on their way to Kansas, with large amounts of gold for the sale. We think it safe to predict that there will be fully \$2,000,000, in gold at Fort Leavenworth, on the 17th; and that the Delaware lands will bring higher prices than were ever obtained by "Uncle prices than were ever obtained by

The lands to be sold embrace about 200,-000 acres, lying upon the Missouri river, and at the entrance to the Territory. The slave-holders are determined to grasp them and close the gateway to free State settlers. We are glad to see that New England capitalists will compete for the lands with them, and trust they will do so successfully. The Times states that a Trust Company has been organized in Boston, of which Amos A. Lawrence, W. D. Rickman, and R. B. Stoer are trustees, which proposes to receive money for investments in these lands. They will either sell shares at \$100 each, or take money to be invested directly for the owners. Although the amounts first received will be applied to the purchase of lands at the public sale on the 17th, funds can be used to equal advantage during the wh le winter, and interest is allowed from the date of receipt. One one man that went to it (I hear) on re turning home, found his house, barn and winter fodder for his stock all in ashes .-The fire burns deep, and the trees fall thick and fast. I understand that the fire has swept from Saginaw Bay to about seventy miles West the pine region, doing great damage to the timber. Schools are closed on account of the smoke. The railroad trains ring their bells continually while running, and eight head of cattle have been killed in the town within two days by the cars.

#### Idolatry in San Francisco. It is stated in the San Francisco papers

that the Chinese there have erected a large and handsome house of worship, by sub-scription, in which they have an *Idol*. The following is a description of it and their mode of worship, from the editor of the "In the back part of the room is an al-

On either side of the idol and around the walls, as well as suspended from the ceiling, are painted boards and silk covered frames, containing inscriptions said to be taken from the writings of Confucius. The worship consists of music, burning of incense, spreading out of roasted pigs and dishes of fruit and tea before the image, and various inflictions and rites by the "per-formers." Dishes of ten stand before the idol, and sticks of dried wood are kept slowly burning in an urn. Flowers and pres erved or wax fruits remain in the room.
